11/9/26

I said thing very dull to day nothing of importance in the air; only many comments of the great surprise of the dullness of this great murder trial which Simpson made such ado over; have heard thru "Payne" who was with the Daily News but went over to the Mirror was the one responsible for all Simpson has done; heard rumors it will cost the Mirror not less than $50M the News $30M and the Graphic about $20M before trial are over; this came from an official of the Graphic today, odds are still that Lig. will never testify, there is more sentiment as a good civil suit than this also interest taken by the Public is waning rapidly away from the Prosecuting atty. as this showing is nothing as although I never leave desk in side of Court room, I get my information from Reporters and public at large that have not seen any evidence to in any way, to point to any of the defendants committing the crime.

Respectfully Submitted
Foote
